

See the
Monster
Moves
BEFORE They
Happen

The Breakout Package gives you everything you need to take advantage of the power of breakout moves.

We have developed a suite of tools, including new Trading Strategies and Scans, to help you find the strongest breakouts in the market.

But that's not all! We also have created a complete education series to show you exactly how to profit BIG with breakout moves!

AMGN Stock

Find Profitable Breakout Trades with Ease!

The Breakout Package
includes three Trading
Strategies
specifically designed to
find great breakout
trades.

The BP Donchian Strategy

Looking to capitalize on the short term moves, the BP Donchian Strategy looks for quick moves through a Donchian Channel.

The strategy detects a strong push through the middle of the Donchian Channel, and then takes profits once it reaches the channel boundary. This strategy generates big profits in only a few days!

The BP Reversal Strategy

The BP Reversal Strategy is looking for long term trades after we get a trend reversal. This long only strategy will follow a new upward trend in order to capture long term profits.

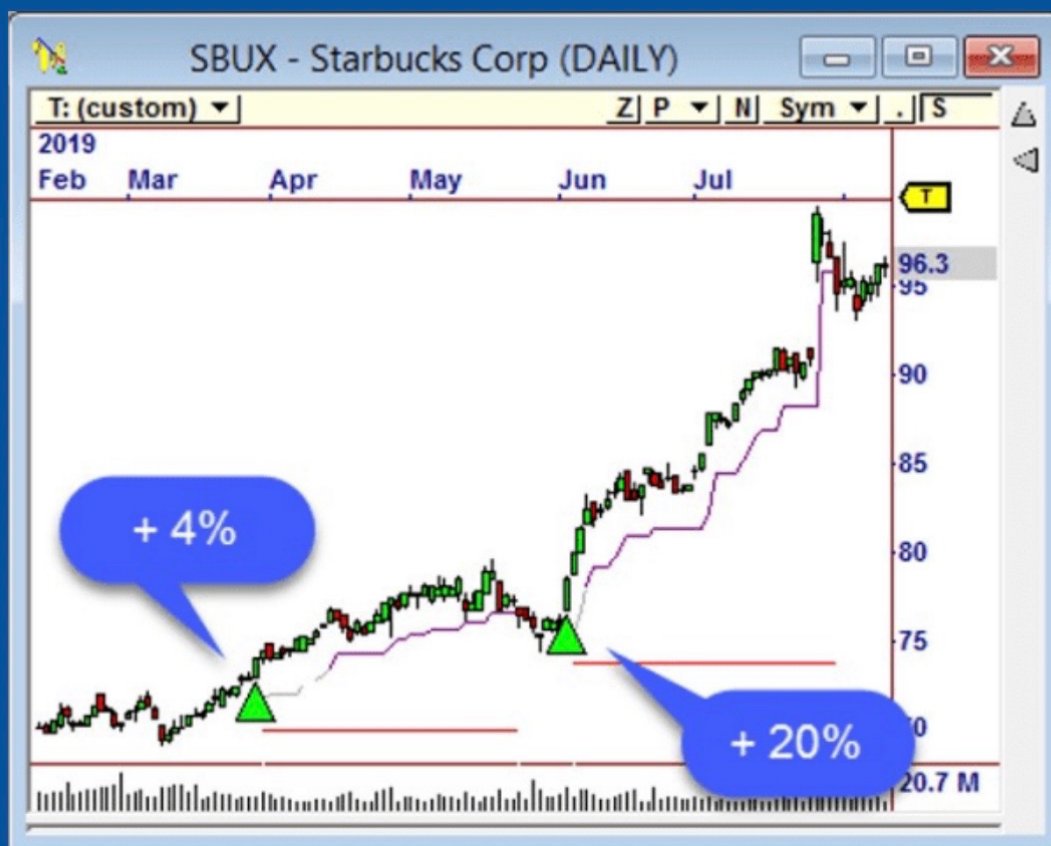

The example to the left shows a BP Reversal Trade on VRTX. After a breakout that confirmed a trend reversal, the strategy was able to generate a whopping 29% return!

The BP Compression Range Strategy

Classic breakouts lead to big gains,
and that is exactly what the BP
Compression Range Strategy gives
you!

This strategy looks for a strong move out of a tight range and then follows the ensuing move for long term profits. The chart for Starbucks on the right shows two examples of trades generated by this strategy with both resulted in solid gains.

The Breakout Package OmniScans

*See the Strongest
Breakouts Across
the Market*

The Breakout Package also includes two new OmniScans that will show you the breakout candidates across the whole market. These scans find the breakout opportunities with the highest profit potential.

Whether you are looking for bullish or bearish breakouts, the Breakout Package OmniScan will bring the best candidates to you every market day!

The Breakout Package is an all-inclusive tool and education collection that helps you find the biggest movers in the market. In this 20 minute video, Jeff Drake demonstrates this powerful new release from Nirvana Systems.

Jeff shows you the new strategies that are included in the Breakout Package and how they find explosive moves. He also covers the additional assets in the Breakout Package including scans, SqueezeTrader, and the education series.
